

METALWORK SOLUTIONS (UK)

Business Update: Winter 2016

CELEBRATING 10 YEARS IN BUSINESS Making Metal *Work* For You

Metalwork Solutions UK celebrates 10 years in business in June this year.

The business was set up in 2006 by Managing Director Paul Jefferson (pictured left) after clocking up over 20 years of experience working in the industry.

Operating from a 15000 square foot premises to the West of Carlisle, the business has developed steadily over the past 10 years and continues to grow. Paul said "I think surviving the recession of 2008 was an important milestone for us, especially as a relatively new business. It proved our business strategy was working at the most difficult of times."

It has been a busy and eventful 10 years, with a growing team of qualified draughtsmen, fabricators and welders. A number of new quality systems are also in place including ISO 9001:2008 and CE Marking at Execution Class 4.

HELICAL STAIRCASE IS METALWORK SOLUTIONS SHOW STOPPER

Metalwork Solutions UK were commissioned to undertake the design and installation of a feature helical staircase at the new £8.5 million police station in Barrow, Cumbria.

The staircase is a show-stopping piece of architecture using stainless steel and curved glass. It gives a modern feel to this new state of the art building and is very much a talking point. The helical staircase connects the three floors of the new police premises, which opened in 2015.

NEW YEAR—NEW PROJECTS

CNC Plasma Cutting Machine

This is the latest piece of kit to be installed at the Metalwork Solutions premises. This impressive computer operated machine is available to clients for any signage or precision cutting requirements, Visit our website to see the machine in action or call in for a coffee and see for yourself.

Functional Fitness Rigs

Fitness Rigs are becoming increasingly popular in fitness centres and gyms throughout the world, Metalwork Solutions are offering completely versatile kits to suit the most discerning of fitness enthusiasts—from a simple pull up bar to fit in the garage to a multi station outdoor rig with monkey bars and squat racks. The kits come flat pack with full installation instructions, or onsite installation can be arranged to suit client requirements.
